Proposed Assam Agribusiness and Rural Transformation Project (APART): <u>Draft Terms of Reference (ToR) for Cluster Development Specialist</u>

Project background:

- 1. The Government of Assam (GoA) through Government of India (GoI) has applied for a credit from the World Bank for the Assam Agribusiness and Rural Transformation Project (APART). The Assam Rural Infrastructure and Agricultural Services Society (ARIASS) now intends to apply a portion of this credit for engagement of a Cluster Development Specialist (CDS) on contractual basis.
- 2. The development objective of APART is "increasing value-added and improve resilience in the production and processing of selected agricultural commodities, focusing on small farmers and agro-entrepreneurs in targeted districts".
- 3. There are four components to the APART. The first component is Support to Agri enterprise Development, with sub components being (i) enhancing state capacity to attract private investments, (ii) setting up of an enterprise challenge fund (iii) sector development through stewardship councils. The second component is Farm Market Infrastructure Development with subcomponents being- (i) facilitating cluster development, (ii) investment support for cluster development (iii) market support. The third component is Market Led Production and Resilience Enhancement with sub components being (i) facilitating production cluster development (ii) facilitating access and responsible use of financial services (iii) Information and risk management support. The fourth component is project Management, Monitoring and Learning.
- 4. The project will achieve the proposed PDO by: (i) promoting investments in agri-enterprises, reducing the business and transaction costs, facilitating access to finance for agribusiness entrepreneurs, and, where appropriate, push for process, regulatory and/or policy change; (ii) supporting the development of a modern agri supply chain; improved information communication technologies (ICT) based farm information and intelligence services, and alternative marketing channels; and (iii) improving producers' access to knowledge, technologies and infrastructure so that they are able to respond to market opportunities and climate variability.
